

TOP TASTE INTERNATIONAL

Organic, Authentic Japanese Loose Leaf Green Tea
Half Shaded Green Tea (Kabusecha)
100% Kagoshima tea

Discover the most authentic, organic range of Japanese tea! Our products include organic half shaded green teas, matcha and powdered green tea for Retail, Food Service and Manufacturing.

When it comes to green tea, our production is only about the best teas from Japan, renowned for their exceptional taste and the wellness which they provide. The tea plant is shaded from the sun with special nets (Kabuse) several weeks prior to picking. Shaded tea develops more active substances and a distinctive fresh and highly aromatic scent. The decisive criterion in the production of our half shaded Japanese green tea (Kabusecha) is the preservation of the vital and aromatic substances in the fresh leaf. A special way of steaming, rolling and processing the tea leaves sets free the whole active substances and delicate aroma. Dazzling green crescendo of colours and fabulous flavors.

All teas produced by Shimodozono, Japan
